# WATERBASE INKS

Ryonet now is excited to offer our new Enviro Water Based Ink. This new environmentally friendly ink is a great solution for shirts, sweats, towels, and even paper. These inks have an incredibly soft hand which makes them great for printing on many different types of applications.

## MATSUI DISCHARGE

Discharge screen printing is becoming very popular in todays market. Through it is not as environmentally friendly as the EnviroLine Water Based Inks, discharge offers a unique solution for garment decoration. This ink can be printed as direct discharge, dye discharge, or used as an under base for water based or plastisol inks. Discharge water based ink produces an extremely soft hand and gives the garment a unique vintage look customers love! (SEE BELOW)

**DISCHARGE**

## MATSUI PC WATERBASE INKS

Ryonet's EnviroLine 301 PC Pigment Dye Inks is great when mixed into our Water Based Bright Discharge Ink or when used as a color boost to the RC water based inks. They can also be used for color matching water based inks when using the PC color matching system

# AVAILABLE FRAMES

Ryonet offers pre-stretched aluminum and wood frames **Made in the USA**. Mesh Counts ranging from 24 tpi to 420 tpi. We can provide a solution to all of your screen needs, no matter what the size or application. Custom frames are available on request. For custom frame quotes, please call 800-314-6390 ext 124.

## Plastisol Ink Mesh Count General Guideline:

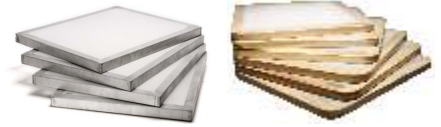

24-86 Mesh - Specialty Inks (See Below)

110 - Most Popular for Light Colors such as White.

156 - Most Popular for Black. Holds More detail than 110 but less ink will pass through the screen.

200-230 - Ink will need to be reduced. Holds high detail. Good for Solvent based and Water based

230-305 - Mostly used for super fine detail half tones and CMYK Process Prints, Solvent and Water

## WOOD FRAMES

## ALUMINUM FRAMES

### Wood 20x24 38 white mesh

Item No. W202438 On Sale: **\$18.90** \$22.68
