Number Stencils!

This efficient numbering method allows you to direct print numbers on most fabrics without investing in expensive numbering equipment. These numbering stencils are available in:

2", 4", 6", 8", & 10" in our **Standard Athletic Block** style.

4", 6", 8", & 10" in our **Full Athletic Block** style.

4", 6", 8", & 10" in the companion **Outline** style for either the Standard or Full Athletic Block styles.

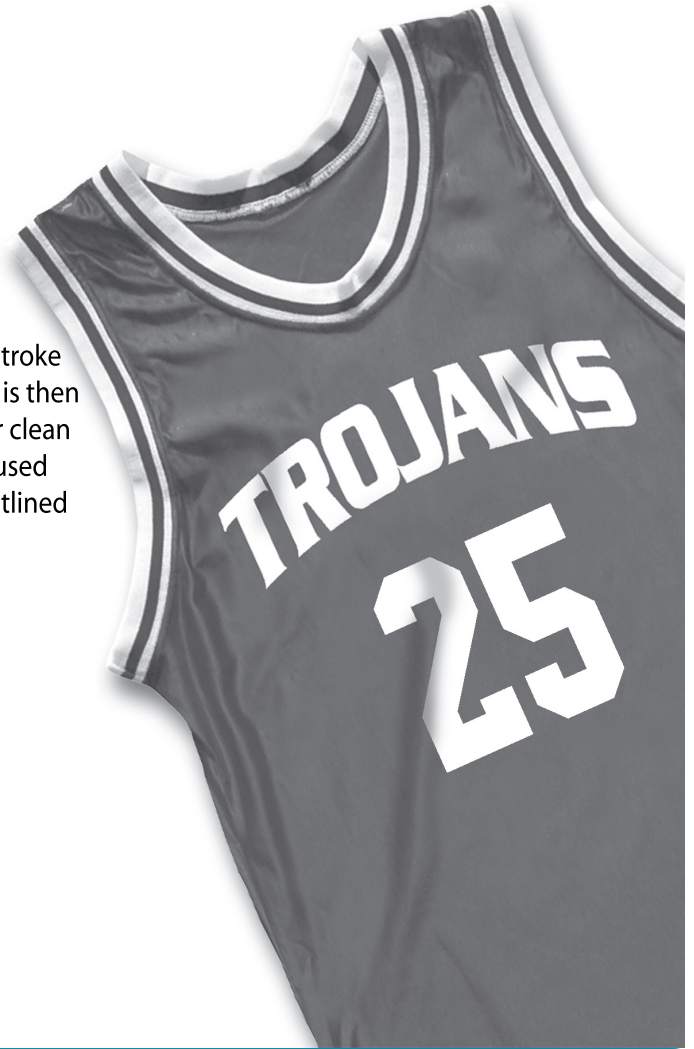

These inexpensive stencils adhere to the screen on the printing stroke and are thrown away after printing the number. The next stencil is then adhered to the screen in the same fashion with no adjustment or clean up of the screen between numbers. Our Outline stencils can be used with the Standard or Full Block stencils to achieve a two-color, outlined number.

With our complete line of numbering stencils including Block, Full Block or Outline, any printer can compete for team uniforms with a winning look.

Our numbering stencils are sold in sets, with replacement numbers available in packs of 100.

A **Set** consists of: 200 number 1's
100 number 0, 2, 3, 4, 5, 6, 7, 8, & 9's
100 3" wide paper strips

A **Pack** is 100 of any one number.
Individual stencils are labeled.

Standard Athletic Block

1234567890 1234567890

4", 6", 8" and 10" available in Outline style.

Full Athletic Block

1234567890 1234567890

4", 6", 8" and 10" available in Outline style.

How to use Ryonet Corporation's Die Cut Number Stencils

Screen Preparation:

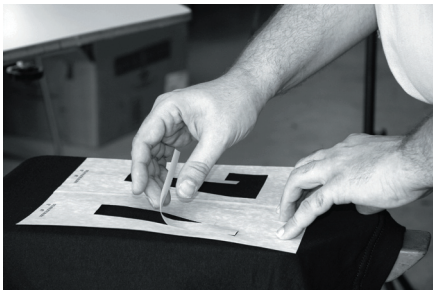

Use a 60-110 Monofilament Polyester fabric on 16" x 18" x 10" frame. Block out screen so that an opening remains in center of screen as follows:

- For 2" numbers, 4 1/2" H x 4 1/2" W opening
- For 4" numbers, 6 1/2" H x 6 1/2" W opening.
- For 6" numbers, 8 1/2" H x 9" W opening.
- For 8" numbers, 10 1/2" H x 11" W opening.
- For 10" numbers, 13" H x 14" W opening.
- For Single Digit Number use 3" wide paper strips to block out any opening surrounding the stencil.

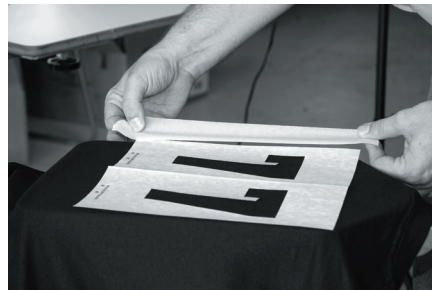

Once you have prepared your screen, proceed to step 1

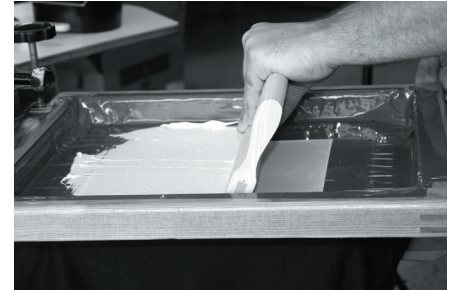

1 Place number stencils on shirt over shirtboard. Remove die cut numbers from sheet to expose number outline. (Save for reverse print numbering if desired.)

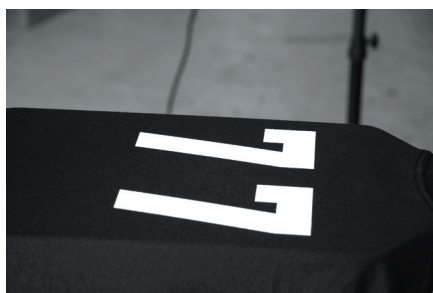

2 Align stencil(s) on shirt. Overlap double digit number stencils 1/4" minimum. Remember to align center pieces of the 0, 4, 6, 7, and 9 within stencil.

3 Use paper strips to mask edges of number(s) where screen opening is larger than stencil.

4 Lay screen down onto stencil and shirt. Pull squeegee once to adhere stencil to screen and again to print a clean image.

5 Lift screen to check printed number. Remove shirt from shirtboard and place on dryer.

6 Peel the paper stencil off the screen and discard. Don't forget to remove the centers of the 0, 4, 6, 8, and 9.

7 After drying, your numbered shirt is ready to wear! Repeat this easy procedure for all the numbers you need to print.
